teachers who want to use a pattern for a
workshop.

Cut.

From the green fabric cut 36.5" x 26.5".

1. Hem down the sides of the bag for about three inches.

Hem along the top of the bag then turn this over to make a tube the drawstring can go through. Figure 1.

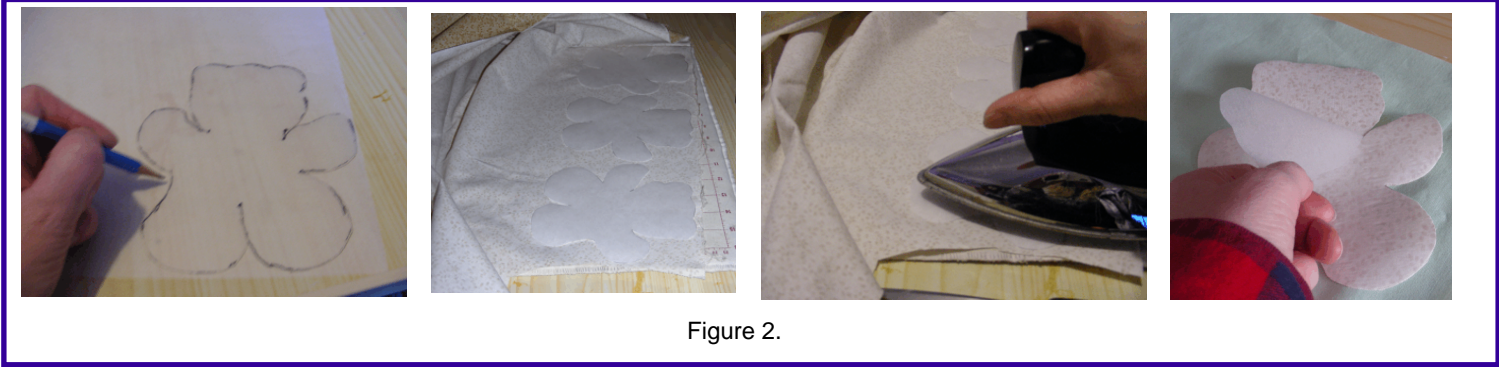

Figure 1.

2. I used bond a web for the bears.

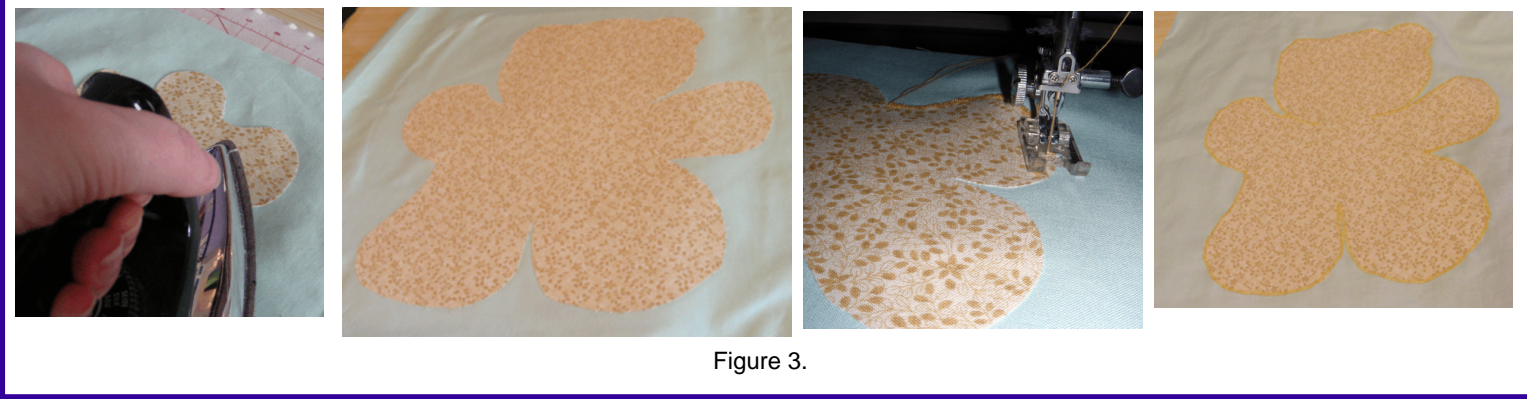

Place the template of the bear on the paper side of the bond a web and draw round, do this four times. Cut the bond a web out.

Place the bond a web paper side up on the wrong side of the fabric for the bear. Iron over the bears then cut them out.

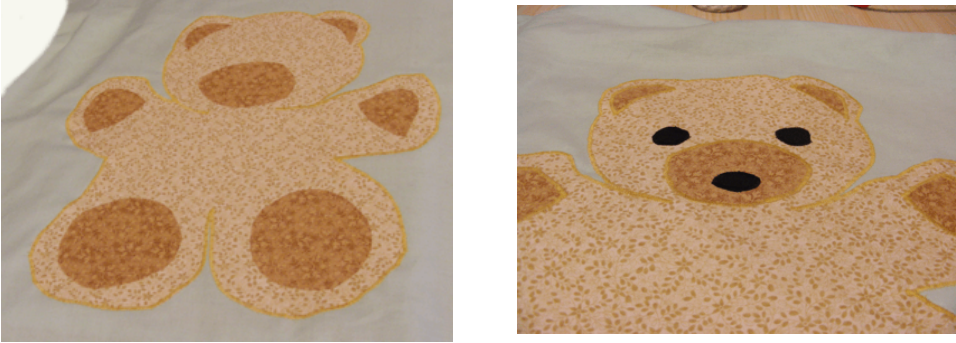

Peel off the paper backing off one of the bears. Figure 2. These photos show a smaller bear being prepared but it is the same method for a larger bear.

3. Place the bear on one side of the bag with the bear fabric facing up, the bond a web side should be on the bag. Iron the bear in place. Use a close Zig-Zag stitch to sew the bear one to the bag. Figure 3.

4. Add the muzzle and paws using the darker fabric. Add the eyes and nose using the black fabric. Figure 4. Add a second bear to the other side of the bag.

These are the templates for the bears paws, muzzle, eyes and nose. The body is available in a separate file called bear template.

5.fold the bag rightsides together, pin in place the sew from the bottom corner at the fold to the top of the bag.

Do not sew up to the top of the bag leave the tube for the drawstring open. Figure 5.

Figure 5.
